

**Hersey Meters** is an integral part of the Mueller Water Products, Inc. family, is currently seeking to fill the **Senior Electronics Manufacturing Process Engineer** position, located in Cleveland, NC.

As Senior Electronics Manufacturing Process Engineer, you will lead and implement manufacturing of next generation electronics for automatic meter reading equipment and infrastructure. This position will work within a highly collaborative team ensuring that all project commitments are met with a high commitment to quality. This position requires an extensive background in high volume / low cost manufacturing, with some experience in circuit design, board layout and firmware coding. The preferred candidate will have demonstrated solid technical abilities with RF communications technologies, power management skills utilizing low power / long life batteries, creative troubleshooting using 6-Sigma methodologies, and a desire to advance their career with increasing technical responsibilities.

**REQUIRED QUALIFICATION** for this position include; a Bachelor's Degree in Electrical or Electronics Engineering (Master's Degree Preferred) and 5 years experience in electronics manufacturing. Candidate **MUST** be able to travel internationally and have proven ability to interact and communicate daily with remote manufacturing and design sites. *Desired qualifications* include; 7 years of experience in electronics and firmware design, proficiency in layout and simulation software, experience in electronic component selection and certification for use, experience in defining and implementing system interfaces, and experience with agency certifications such as UL, FCCC, etc..

Hersey Meters believes the most important asset in Hersey's continued success is its people. If you're interested in becoming a part of the dynamic Hersey Meters team, please email your resume to [mmessenger@herseymeters.com](mailto:mmessenger@herseymeters.com) or fax to 704.278.4408.

Hersey Meters will contact desired applicants to proceed in the hiring process. **PLEASE DO NOT CONTACT HERSEY METERS REGARDING THE STATUS OF YOUR APPLICATION.**
